Mission Statement for Huntington Hospital
As a member of the North Shore-Long Island Jewish Health System (referred to as “North Shore-LIJ”), Huntington Hospital (HH) strives to improve the health and quality of life for the people and communities we serve by providing world-class service and patient-centered care.

Who We Are
Huntington Hospital is a 408-bed community hospital with the following inpatient services: medical/surgical, pediatrics, intensive and critical care, maternity, Level II Perinatal service, and psychiatry. In December 2004, HH opened its new Surgical Services Pavilion, which includes 12 operating rooms, patient pre-operative areas, centralized pre-surgical testing, post anesthesia care unit, and ambulatory surgery center. The hospital provides an array of inpatient and outpatient ancillary services which include a Women’s Health Center, an endoscopy suite, radiation therapy, physical therapy, cardiac diagnostic and treatment services, acute and chronic renal dialysis, and a full range of radiology services. Huntington Hospital is a New York State Department of Health Designated Stroke Center, an Accredited Cancer Program, American College of Surgeons Commission on Cancer, and a recipient of the American Heart Association Get With The Guidelines-Stroke Gold Plus Award in 2012.

Primary care, including prenatal care, is provided through HH’s Dolan Family Health Center (DFHC). The DFHC is devoted to the care of the underprivileged and medically underserved. It is the only such center both owned and operated by a hospital on Long Island, providing 29,052 visits in 2012. Other ambulatory services include rehabilitation, dialysis, and intravenous cancer chemotherapy. In 2012, HH reported 15,843 inpatient discharges (excluding normal newborn discharges), including the delivery of 1,398 babies. In addition, HH reported 51,754 Emergency Department visits (including Emergency Department admissions), and 8,682 ambulatory surgeries, including endoscopies and outpatient cardiac catheterizations.

Prevention Agenda for the Healthiest State
In an effort to assess, identify, and address the community’s health needs, HH conducted a community health needs assessment (CHNA). The assessment was conducted by county and included the analysis of primary and secondary data. Primary data was obtained through qualitative analysis of community-based organization (CBO) informant interviews, CBO surveys, individual community member surveys, and participation in the Suffolk County collaborative partner meetings. These meetings included representatives from the Suffolk County Department of Health Services (SCDOH), CBOs, academic institutions, government agencies, and hospitals. There was a special effort to include individuals with health disparities as well as organizations that serve these communities. Secondary data analysis of health statistics was performed in collaboration with the SCDOH. The secondary analysis included data sources such as: (1) internal hospital
data, including Prevention Quality Indicators (PQI), (2) Department of Health Community Health Assessments, (3) local regional New York State Prevention Agenda data sources, (4) E-BRFSS, (5) 2010 US Census data and (6) Statewide Planning and Research System (SPARCS) data. The partnership among local health departments, hospitals and CBOs enabled region wide leveraging of resources, consensus on health priorities, and collaboration on health promotion strategies. The following major health needs were identified:

Suffolk County

- Prevention and management of chronic disease
- Obesity prevention and treatment (including increasing physical activity, access to healthy foods, and access to counseling)
- Mental health and substance abuse
- Elder care

As a result of the CHNA analysis, the New York State Department of Health (NYSDOH) Priority Agenda Item for HH, recommended to, and approved by, the North Shore-LIJ Board of Trustees Subcommittee on Community Health, is Prevent Chronic Diseases, with focus areas of:

- Reducing obesity in children and adults
- Increasing access to high-quality chronic disease preventive care and management in both clinical and community settings*

*With an emphasis on the integration of mental health awareness and screening

A 3 year implementation plan, including evaluation metrics, addresses the chosen priorities through the use of public awareness campaigns, community education, provider training, health system changes, coalition building, research, and policy changes to support the following strategies:

- Creating community environments that promote and support healthy food and beverage choices and physical activity
- Preventing childhood obesity through promotion of breastfeeding and school-based initiatives
- Expanding the role of health care, health service providers, and insurers in obesity prevention
- Expanding the role of public and private employers in obesity prevention
- Increasing screening rates for cardiovascular disease, diabetes, and breast/cervical/colorectal cancers, especially among disparate populations
- Promoting the use of evidence-based care to manage chronic diseases
- Promoting culturally relevant chronic disease self-management education

A detailed report of CHNA can be obtained by calling the Office of Community and Public Health at 516-881-7000
Other Community Benefit Programs

Additional community-based programs at Huntington Hospital complement and enhance the priorities of the Prevention Agenda. Huntington Hospital fully anticipates that the coalition building inherent in the planning for Prevention Agenda priorities may well afford opportunities to expand the reach of the other community programs that are in place within the hospital.

Huntington Hospital, as part of North Shore-LIJ, provides a broad array of community benefit programs, such as:

A. Access to Healthcare Services and Caring for the Medically Underserved
B. Health Professions Education
C. Community Health and Wellness
D. Community Medical Support Services and Programs
E. Support Groups

A. Access to Healthcare Services and Caring for the Medically Underserved

Financial Assistance Program (FAP) – North Shore-LIJ is a regional leader in providing financial relief to families who do not have access to the financial resources to pay for medical care. The FAP program was implemented in 2004 through the creation of a standard policy as the result of the combined efforts of the Finance Department and the Office of Community and Public Health. Developed after many months of discussion and input from senior leadership, community members, and key staff, the policy provides a uniformly-administered system of reduced fees for uninsured residents of North Shore-LIJ’s service area.

All medically necessary services are covered under the program. The program is communicated through:

- Multilingual signage throughout facilities
- Multilingual educational brochures at key points of patient contact
- Website (www.northshorelij.com/assistance)
- Staff outreach
- Patient bills - All bills include a notice about the FAP, along with the program’s toll-free number, (888) 214-4065.

FAPs are available for individuals earning up to five times the federal poverty level ($117,750 for a family of four). In addition, the application process for financial assistance has been redesigned to improve the quality and friendliness of the user experience. Many FAP requests are now processed on the telephone via an interactive process, relieving the patient of the burden of providing current income documentation. This also reduces the administrative burden of compiling documentation for the application. Additionally, the FAP application has been simplified to one page. FAP applications are available on-line in 15 languages at www.northshorelij.com/assistance. For more information or questions, please call (888) 214-4065.
Healthcare Access Center (HAC) – Access to care for those who lack insurance and the resources to pay remains a priority of North Shore-LIJ. The HAC, staffed by bilingual employees, assists community residents with referrals for enrollment into government-subsidized nutrition assistance (SNAP) and insurance programs such as Medicaid, Child Health Plus and Family Health Plus. In addition, the HAC staff refers patients to the Medicaid Prenatal Care Program and to the Senior Navigator Program within North Shore-LIJ for assistance with Medicaid for pregnant women and Medicare enrollment for seniors. Those not eligible for public health insurance are referred for reduced-cost care at North Shore-LIJ facilities through hospital FAPs and to other low-cost health insurance programs, such as Healthy New York. For more information on the HAC, please visit www.northshorelij.com/assistance or call (1-866) 381-1931.

Language and Communication Access Services (LCAS) – Facilitating effective communication in the preferred languages of patients and the community is a priority of North Shore-LIJ. The Office of Diversity, Inclusion and Health Literacy (ODIHL) provides Language and Communication Access Services (LCAS) in an effort to meet the needs of our diverse populations. The ODIHL collaborates with each facility and provides resources for assessing, monitoring, overseeing, and ensuring the facility’s LCAS. To ensure meaningful access to health care services for persons with Limited English Proficiency (LEP) or persons whose preferred language is other than English, free medical interpretation and document translation services are available 24/7. Sign language interpretation services for the deaf and hearing impaired as well as specific communication tools for speech-impaired patients are also available. For more information, please call (516) 881-7082.

Diversity and Inclusion – As the surrounding communities have become more diverse, North Shore-LIJ has identified diversity and inclusion as essential components to patient and family centered care. The Office of Diversity, Inclusion, and Health Literacy (ODIHL) has implemented a system-wide educational curriculum and offers numerous programs, such as the Business Employee Resource Group program, to enhance employee engagement, leadership development, recruitment, and retention of top talent. Through the enhancement of internal and community partnerships, ODIHL proactively drives forward a culture of wellness and responds to the increasing diverse needs of patients, the workforce, and the communities served – leveraging differences to achieve the highest potential. For more information, please contact the ODIHL at (516) 881-7083 or DIHL@nshs.edu.

Patient Education and Health Literacy – North Shore-LIJ has reaffirmed its commitment to providing excellent patient care by focusing on the integration of patient education and health literacy as a service line. This approach will help ensure consistency and sustainability across the health system. The ODIHL continues to be a system-wide resource and offers numerous educational opportunities for the workforce. It serves in a consultative manner for all facilities in the review and development of written health educational materials and ensures the integration of health literacy into the fabric of the organization. The ODIHL is advancing cultural and linguistic competence, and promoting effective communication to enhance patient outcomes and eliminate health disparities in communities. For more information, please call the ODIHL at (516) 881-7083 or email DIHL@nshs.edu.

The Katz Institute for Women’s Health (KIWH) Resource Center – The KIWH is dedicated to improving all aspects of a woman’s health at every stage of her life. The KIWH Resource Center offers women seamless, coordinated access to all of North Shore-LIJ’s clinical programs and services across
the continuum of care. The Resource Center is staffed Monday through Friday from 9am to 5pm. During off-hours, please leave a voice message and your call will be returned within one business day. For questions related to Women’s Health, please call (855) 850-KIWH (5494).

**Find A Physician** – The HH provides an on-line service for community residents in need of a local physician. Community residents can search by physician name or can view all physicians under a specialty. This service is available on the HH website at http://www.igdbase.com/hunthosp/.

**MedShare** – North Shore-LIJ collaborates with MedShare, an organization dedicated to improving the environment and healthcare by connecting the surplus of medical supplies in one part of the world to a great need in another. This partnership provides critical resources to the medically underserved, both domestically and abroad. Physicians, nurses, and volunteers work collaboratively to collect, sort, ship, and distribute unused medical supplies to hospitals and patients in the U.S. and the developing world. In 2012, North Shore-LIJ donated more than 24,500 pounds of unused medical supplies.

**Positive Outreach with Integrated Resources (P.O.W.I.R.)** – North Shore-LIJ's P.O.W.I.R. program is designed specifically for women, youth, and men under 24 years of age who are infected with, affected by, or at risk for HIV. The program links individuals to resources within the health system and the community. In 2012, more than 325 women and youth attended programs for World AIDS Day. For more information on the P.O.W.I.R. program, please call (516) 622-5189.

**B. Health Professions Education**

**Accelerated Career Training (ACT) Program** – The Office of Community and Public Health at North Shore-LIJ partnered with New Yorkers for Children (NYFC) to create an educational/vocational training program for youth in foster care, ages 18 – 23, to gain crucial skills, knowledge, and support in order to become competitive in the marketplace and explore possible career paths in health care. The 10 week program, which targets youths who have successfully obtained a high school diploma or an academic equivalent, includes educational courses and training in healthcare careers, interpersonal and career skills development, wellness and nutrition, finance, and computer applications. These young adults are also matched with an individual mentor to guide and coach them on a more personal, one-on-one basis. Those who successfully complete the program are encouraged to apply for a part time, paid internship experience that will provide them with additional hands-on training for a career in healthcare. For more information about the ACT Program, please contact (516) 881-7000.

**Graduate Medical Education** – As a major academic health system in the New York metropolitan area, North Shore-LIJ is dedicated to excellence in patient care, teaching, and research. More than 1,500 residents and fellows are trained each year in graduate education programs at 16 member hospitals, with access to state-of-the-art simulation and a
BioSkills Education Center. Clinical affiliations include Albert Einstein College of Medicine, NYU School of Medicine, New York Medical College, SUNY Downstate Medical Center, SUNY Stony Brook University Hospital, and New York College of Osteopathic Medicine. The Feinstein Institute for Medical Research is among the top six percent of research institutions that receive funding from the National Institutes of Health. For more information about the individual training programs at North Shore-LIJ, please visit http://www.northshorelij.com/GME.

Hofstra North Shore-LIJ School of Medicine – In 2008, Hofstra University and North Shore-LIJ entered into a formal agreement that established the Hofstra North Shore-LIJ School of Medicine, the first allopathic medical school in Nassau County and the first new medical school in the New York metropolitan area in more than 35 years. The academic partnership enhanced recruitment of faculty, leadership, and researchers; furthered the expansions of residencies and fellowships; and enhanced the integration of clinical and translational science. In 2011, the School of Medicine welcomed its inaugural class of 40 students and plans to increase its class size by 20 students per year until a maximum class size of 100 students is achieved. For further information, please visit the School of Medicine’s website at http://medicine.hofstra.edu or call (516) 463-7516.

Medical Scholars Pipeline Program – To increase the diversity of the applicant pool for the medical school and healthcare workforce, Hofstra North Shore-LIJ School of Medicine conducts a four year intensive program for talented high school students from underprivileged communities who are interested in pursuing health-related careers. Students engage in learning sessions on topics ranging from the ethics of medical research, health-care reform, SAT preparation, CPR training, cardiology, pediatrics, team building, health literacy, and cultural competency. Each year, a new class of 22 students gains exposure to healthcare professions through clinical and research activities and mentoring opportunities from physicians and health system administrators. For more information, please call (516) 463-7550.

C. Community Health and Wellness

Huntington Hospital offers free and low cost health education programs throughout the year on a variety of topics, and members of the HH staff are actively involved in providing health education programs within community settings such as senior centers, faith-based organizations, and schools.

Community Health Programs and Screenings – North Shore-LIJ provides community residents with free health screenings through programs organized by each member hospital. Screenings are held in conjunction with national campaigns (heart health, blood pressure, prostate cancer, and skin cancer) and throughout the year at educational events, all of which are open to the public. Individuals may be referred for follow-up care at North Shore-LIJ. Uninsured individuals who require follow up care can utilize the services of HH’s sliding fee scale program, with services
starting at $0. In 2012, North Shore-LIJ hosted or participated in more than 823 community health programs and provided more than 25,587 health screenings.

**Cancer Prevention and Survivorship** – A free community Breast Health Forum is held each year, featuring an interdisciplinary panel of cancer specialists, including physicians, nurses, social workers, and nutritionists from cancer subspecialties. These experts highlight the year's most significant advances in cancer prevention, screening, and treatment modalities, and conclude the program with a question and answer period. For more information about the Breast Health Forum, please call the Development Office at (631) 351-7040.

**Cancer Survivors’ Day** – Each year, community members living with and beyond cancer are reunited with the healthcare professionals who helped care for them at the annual National Cancer Survivors’ Day event hosted by the Don Monti Cancer Center and HH. Cancer survivors, their friends, families, and healthcare professionals gather to celebrate their health and share their emotions and experiences with other survivors and their families. In 2012, more than 400 people attended this event. For more information about Cancer Survivors’ Day, please call (631) 351-2568.

**High School Career Exploration Program for Nursing** – High school seniors interested in a career in nursing are given a rare, up close look at the daily activities of front-line Registered Nurses at HH through the High School Career Exploration Program. Students are given the opportunity to observe firsthand the roles of nurses in areas such as the Emergency Department, oncology, obstetrics, and more. Students are selected from 10 area high schools to participate in the program. In 2012, 13 high school seniors each committed 20-30 hours to the program. For more information about the program, please contact the Staff Development office at (631) 351-2463.

**Teddy Bear Clinic** – Collaborating with local school districts, HH welcomes approximately 900 students over the school year to attend this special program, designed to help children in the community overcome their fear of hospitals. Children are asked to bring their worn teddy bear or stuffed animal to the event and to invent a story about why their bear needs to go to the hospital. The stories are shared with the hospital staff and the bears are “fixed” with gauze, bandages, tape and other medical supplies. Children are then invited to visit several “booths,” staffed by hospital employees, to learn about hand hygiene, height and weight, sports safety, 911 emergencies, x-rays, first aid, and more. At the end of the program, children are given a brand new teddy bear. For more information about the program, please call (631) 351-2337.

**Drug Take Back** – North Shore-LIJ participates in a nationwide prescription drug take-back initiative to prevent pill abuse and theft and reduce the amount of unused medications that currently enter landfills and drinking water systems. In conjunction with the Drug Enforcement Administration, North Shore-LIJ collected 1,145 pounds of potentially dangerous, expired, unused, and unwanted medication in 2012, and more than 2,000 pounds since 2010. For information on additional Drug Take Back Days and locations, call (516) 881-7000.

**Heath Information Team Center At Citi Field (H.I.T.)** – In partnership with the New York Mets organization, North Shore-LIJ’s Katz Institute for Women’s Health opened the H.I.T. Center at Citi Field. H.I.T. provides various health-related, multi-media presentations and activities for visitors, including the interactive wheel of health and the heart healthy station. Fans of all ages are welcome to play and learn tips on health topics such as: nutrition, child safety, sun safety, and general
wellness. H.I.T. also provides information about North Shore-LIJ and access to the variety of services, physicians, and locations. For more information about the H.I.T. Center at Citi Field, please call (516) 881-7000.

Healthy and Safe Environment Initiatives –
For North Shore-LIJ, the essence of community health is underpinned by commitment to a strong environmental stewardship and social agenda; in November 2010, North Shore-LIJ signed a Memorandum of Understanding with the Environmental Protection Agency to establish far-reaching, environmentally responsible programs and business practices at its facilities. The sustainability programs and projects have helped the health system to reduce North Shore-LIJ’s overall carbon footprint by 15.6% from 2009-2011. Among the numerous initiatives, North Shore-LIJ currently has 11 LEED certified buildings, two Energy Star Award hospitals (Glen Cove and Franklin), and a comprehensive recycling and waste reduction program. For more information on our sustainability initiatives, visit http://www.northshorelij.com/hospitals/about-us/sustainability-social-responsibility, email sustainability@nshs.edu, or call 516-881-7028.

Safe Kids – In 2012, more than 5,600 children participated in 55 injury prevention/safety education programs sponsored by the New York State, Queens, and Nassau Safe Kids Coalitions, led by North Shore-LIJ. These programs, which encourage kids to be active, have fun, and be safe, are offered in partnership with area schools, Police Benevolent Associations, government, and local businesses. Educational programs cover topics such as water safety, pedestrian/motor vehicle safety, burn injury prevention, bicycle and sports injury prevention, enhanced “911,” pets and pals, and summer safety. In addition, child car seat check-up stations and special events are held throughout the state and on the campuses of North Shore-LIJ. Please call (516) 881-7000 for more information about the Safe Kids program.

Stepping On – Stepping On is a program that empowers independent, older adults to carry out health behaviors that reduce the risks of falls. It is a community based workshop offered once a week for seven weeks using adult education and self-efficacy principles. In a small group setting, older adults learn balance and strength exercises and develop specific knowledge and skills to prevent falls. Workshops are facilitated by trained leaders. For more information, please call the Office of Community and Public Health at (516) 881-7000.

“Think F.A.S.T.” Stroke Awareness Campaign – The “Think F.A.S.T.” Stroke Awareness Campaign educates the public about the signs and symptoms of stroke. In 2012, more than 32,000 community members took part in the campaign’s stroke awareness events. They learned how to recognize stroke signs and symptoms, to call 911 immediately when symptoms occur, and to get to the hospital quickly. For more information about the Campaign, please contact (516) 562-1194.
D. Community Medical Support Services and Programs

Blood Donor Services – Each year, employees of HH help to ensure an adequate blood supply for New Yorkers in need by donating blood. In 2012, more than 7,214 pints of whole blood were donated by employees of HH and North Shore-LIJ.

Healthier Tomorrows – In cooperation with the Huntington YMCA and the Dolan Family Health Center, the Department of Pediatrics at HH offers a unique program to help children ages 9-16 reverse early weight problems. The 10-week program blends fun group exercise sessions with nutrition guidance and psychosocial support to help kids learn about healthy lifestyle choices and make positive changes. These twice weekly sessions emphasize healthy food choices rather than traditional dieting and are combined with 45-minute exercise sessions. Nutrition sessions and group counseling are also offered for parents of the children enrolled in the Healthier Tomorrows program. For more information, please call (631) 351-7923.

Learn to Be Tobacco Free – Learn to Be Tobacco Free is a six-week group program that includes group and individual support, behavior change strategies, prescription medications, and nicotine replacement products, and is offered in conjunction with the Suffolk County Department of Health. Huntington Hospital also hosts a Nicotine Anonymous group to support ongoing “tobacco-free” living. For more information, please call (631) 351-2385.

Public Access Defibrillation Program (PAD) – The PAD program is designed to increase the availability of automated external defibrillator (AED) devices in the community as well as empower people within the community to use them through AED/CPR training and education. The PAD program assists local organizations with establishing an emergency response that includes the use of an AED, as well as both initial and refresher training in CPR and AED use. Trainings are held at locations throughout Nassau, Suffolk, Queens, and New York City as well as at all North Shore-LIJ hospitals. For more information, please call (516) 881-7000.

Murcott Conference Center – The Dolan Family Health Center’s Murcott Conference Center provides the community with space for health education and health promotion programs geared to patients, families, and community residents. Facilities are available free of charge to local community groups and organizations such as AARP, BOCES, CancerCare, civic groups, and community-based organizations during regular center hours. In 2012, the Murcott Conference Center provided more than 1,032 hours of scheduled meetings and conferences for the community. For more information, please call Administration at (631) 425-5244.

American Heart Association (AHA) Training Center – Huntington Hospital is a member of the North Shore-LIJ AHA Training Center and provides trainings in Basic Life Support (BLS), Pediatric Advanced Life Support (PALS), and Advanced Cardiac Life Support (ACLS) to healthcare professionals who require certification in their respective professions. Additionally, this training site offers numerous BLS (CPR, AED, Emergency First Aid) programs to community members, including schools, faith-based organizations, expectant parents, childcare providers, community children’s sports league volunteers, and the general public. In 2012, more than 16,500 individuals received approximately 8,750 hours of training and participated in more than 2,000 programs. Please call (516) 881-7000 for more information about the North Shore-LIJ AHA Training Center.
Center for Tobacco Control (CTC) – The CTC is an innovator in the development of tobacco dependence treatment programs, achieving one-year tobacco use quit rates that exceed the national average. The CTC provides free group tobacco cessation classes as well as individualized quit programs. The CTC’s school-based tobacco prevention initiatives target children, teens, and young adults to help them live tobacco-free lives. The CTC also collaborates with local colleges and student health services to educate young adults about the hazards of tobacco use and the benefits of quitting. In addition, the CTC provides training, education, and patient education materials regarding tobacco dependence treatment to healthcare providers throughout the community. Please visit www.northshorelij.com/stopsmoking, call (1-866) 864-7658 / (516) 466-1980, or e-mail TobaccoCenter@nshs.edu for more information about services and resources available at the CTC.

Gift of Life – Currently, more than 118,000 men, women, and children nationally are awaiting life saving organs for transplantation. Every 10 minutes, a new name is added to the national organ transplant waiting list; in 2012, 18 people died each day due to the shortage of donated organs. In an effort to increase organ and tissue donor awareness, North Shore-LIJ hosts annual Gift of Life programs for employees and visitors. Donor families and recipients participate in these events to acknowledge the importance of this need. In addition, North Shore-LIJ, in collaboration with the New York Donor Network, provides education throughout the year to the public regarding the importance of organ and tissue donation. For more information, please contact the North Shore-LIJ Transplant Center at (516) 472-5829.

Hagedorn Cleft Palate Center – The Hagedorn Cleft Palate and Craniofacial Center provides diagnostic, medical, and surgical care to infants and children who are born with facial differences. The Center provides immediate medical and emotional care to all infants born with a facial difference and their families. All cleft palate services are available free of charge to all community members and include cleft clinics, a parent support group, Teen Talk/Kidz Talk support group, lectures, and conferences. For more information, please visit www.northshorelij.com/NSLIJ (under “Centers of Innovation” / “Hagedorn Cleft Palate and Craniofacial Center”) or call (516) 466-2990.

Naturally Occurring Retirement Community (NORC) – North Shore-LIJ serves as the medical partner for six NORCs across the region, including Deepdale Cares in Queens, Project Independence in North Hempstead, Plainview-Old Bethpage Cares and P.A.C.E., Hands on Huntington, and NORC WOW (Without Walls) in eastern Queens. North Shore-LIJ nurses provide a wide range of services that include health assessments, care management, blood pressure monitoring, flu immunizations, nutrition counseling, and educational programs. This community-based intervention is designed to reduce service fragmentation and create healthy, integrated communities in which older adults are able to age-in-place in their own homes with greater comfort, safety, and security. More than 4,000 seniors are actively receiving care from North Shore-LIJ community nurses. For more information, please call 1-(888) AGEMAP2 or 1-(888) 243-6272 and ask for the Senior Navigator program.
Queens World Trade Center (WTC) Health Program – The Long Island Jewish Medical Center is home to one of seven Clinical Centers of Excellence funded through the James Zadroga 9/11 Health and Compensation Act to provide annual monitoring examinations and treatment for WTC health effects to WTC responders. The WTC Health Program is administered by the National Institute for Occupational Safety and Health of the Centers for Disease Control and Prevention (CDC). Eligible members receive confidential physical and mental health screening and treatment within the Queens Clinical Center and through the North Shore-LIJ network of providers. In addition to monitoring and treatment examinations, the Queens Clinical Center provides outreach and education, social services, benefits counseling, work related benefits counseling, and case management. All WTC Health Program services are federally funded and provided at no cost to responders. For more information, contact Queens Clinical Center at (718) 267-2420, WTC Health Program at (1-888) WTC-HP4U (1-888-982-4748), or http://www.cdc.gov/niosh/topics/wtc/.

Rosen Family Wellness Center – North Shore-LIJ’s Rosen Family Wellness Center counsels Iraq and Afghanistan war veterans impacted by post-traumatic stress disorder, traumatic brain injury and associated behavioral health issues. The center also specializes in providing individual and family counseling, stress management, and medication management to law enforcement, 9/11 first responders, and families of those who have lost a loved one during 9/11. To receive a confidential phone consultation, or to set up an appointment, call (516) 562-3260.

Unified: Behavioral Health Center for Military Veterans and Their Families – Unified is an unprecedented collaboration between North Shore-LIJ and the U.S. Department of Veterans Affairs, in which clinicians from both organizations work together to provide the best evidenced-based behavioral healthcare possible to military personnel, veterans, and their families, including children. Care includes therapy for individuals, couples, and the family. Unified’s goal is to ensure a successful homecoming and reintegration for the military families into the community and to help them heal from the invisible wounds of war. For more information, please call (631) 647-2530.

E. Support Groups
Support groups offer people with similar medical conditions and life challenges an opportunity for discussion, a sharing of experience and knowledge, and a place to ask questions. Huntington Hospital offers free, ongoing support groups for the community in the following areas: bariatric surgery, bereavement, lactation (breastfeeding), smoking cessation (including Nicotine Anonymous), breast cancer and other cancers (in both Spanish and English), heart disease, ostomy, eating disorders, and vasculitis. For additional information about support groups at HH, please visit www.hunthosp.org and view upcoming events.
AWARDS AND ACCOMPLISHMENTS

- North Shore-LIJ Medical Group was awarded the 2012 Baldrige Partners in Performance Excellence Silver Award for outstanding management and operational practices.
- North Shore-LIJ received a Sepsis Heroes Award from the Global Sepsis Alliance in recognition for its leadership role in improving care for sepsis patients across all of their hospitals.
- Making the list for the second consecutive year, North Shore-LIJ was named one of the “100 Great Places to Work in Healthcare” by Becker’s Hospital Review and Becker’s ASC Review in 2012.
- In 2012, North Shore-LIJ received second place in the Champion category of the Leonard G. Doak Health Literacy Innovator Award for the demonstration of commitment to excellence in health literacy within an organization.
- Thirteen North Shore-LIJ physician practices were recognized by the National Committee for Quality Assurance for Diabetes Care in 2012.
- Huntington Hospital received a Stroke Gold Plus Award in 2012 in “Get with the Guidelines,” a national hospital-based quality improvement initiative spearheaded by the American Heart Association.
- Huntington Hospital earned the Joint Commission Disease-Specific Care Certification for total hip replacement and total knee replacement for the second consecutive year.
- Twenty HH physicians were listed in U.S. News & World Report’s “Best Doctors” edition in 2012.
- Huntington Hospital was one of six North Shore-LIJ hospitals to be recognized as Bariatric Surgery Centers of Excellence by the American Society for Metabolic and Bariatric Surgery and the American Society of Bariatric Surgery in 2012.
- Huntington Hospital was ranked among the nation’s top 50 hospitals in five clinical areas in the annual U.S. News & World Report “Best Hospitals” edition.
- Huntington Hospital is an Accredited Cancer Program by the American College of Surgeons Commission on Cancer.
- For the second consecutive year, HH won the prestigious Magnet Award for Nursing Excellence.
- Huntington Hospital’s Women’s Health Center is designated a Breast Imaging Center of Excellence by the American College of Radiology in 2012.
- Huntington Hospital laboratory was awarded national accreditation by the College of American Pathologists in 2012, the gold standard for laboratory accreditation programs.
In Service to the Community We Share

While the North Shore-LIJ Health System delivers state of the art medical services through our 15 hospitals and other facilities, we also reach out to the large and diverse population we serve with innovative and effective programs designed to promote individual and community health in more fundamental ways. The breadth and scope of the programs North Shore-LIJ offers go well beyond our hospital doors directly into the neighborhoods of the people we serve. These programs offer resources tailored to the needs of individuals and families whether they live in Manhattan, in the rural outreaches of Suffolk County, in the ethnically diverse county of Queens or in the suburbs of Nassau County and Staten Island. They range from providing multilingual prenatal care for non-English-speaking expectant mothers at one location, to behavioral support programs for troubled veterans and their families at another, to CPR, smoking cessation, diabetes management and adult obesity support. Programs also include services that make it possible for many older adults to age safely and securely in their homes, and a host of emergency preparedness training programs for civilians and first responders. These programs are available to the entire community regardless of ability to pay.
