Residency in family medicine

Research
Research and development is essential to propel the field of medicine. Through research we are able to cure disease, prevent illness and improve the overall quality of care patients receive. Through advanced research opportunities, the family medicine residency program at Southside Hospital offers residents the opportunity to be on the cutting edge of medicine.
SSH FMRP residency scholarly activity
Poster presentations, oral presentations and written publications
2014 to 2017

7. Caraccioli A, Rali M. Effectiveness of autism screening using M-CHAT for early diagnosis, intervention, and better outcomes. Poster Presentation, Society of Teachers of Family Medicine Annual Spring Conference 2015, Orlando, FL.
