

POLICY/GUIDELINE TITLE: HIPAA Marketing and Sale of Protected Health Information Policy	ADMINISTRATIVE POLICY AND PROCEDURE MANUAL
POLICY #: 800.43	CATEGORY: Compliance & Ethics
System Approval Date: 5/18/18	Effective Date: 08/2013
Site Implementation Date: 6/17/18	Last Reviewed/Approved: 01/2016
Prepared by: Office of Corporate Compliance	Notations:

GENERAL STATEMENT of PURPOSE

To establish requirements for using Protected Health Information (“PHI”) for Marketing purposes and for selling PHI.

POLICY

The Health Insurance Portability and Accountability Act (“HIPAA”) Privacy Rule prohibits the Northwell Health (“Health System”) from using PHI to send promotional communications paid for by third parties, except for refill reminders for which the Health System receives a cost-based fee. PHI will be used or disclosed for Marketing (as defined below) purposes only as specified in the process outlined below and as permitted by HIPAA. The Health System will not sell PHI, except as permitted by HIPAA. *Note: Marketing activities that do not involve uses or disclosures of PHI are not subject to HIPAA privacy regulations.*

SCOPE

This policy applies to all Northwell Health employees, as well as medical staff, volunteers, students, trainees, physician office staff, contractors, trustees and other persons performing work for or at Northwell Health; faculty and students of the Donald and Barbara Zucker School of Medicine at Hofstra/Northwell conducting research on behalf of the Zucker School of Medicine on or at any Northwell Health facility; and the faculty and students of the Hofstra Northwell School of Graduate Nursing and Physician Assistant Studies.

DEFINITIONS

Protected Health Information (“PHI”): Any oral, written, or electronic individually identifiable health information. PHI is information created or received by Northwell that (i) may relate to the past, present, or future physical or mental health or condition of an individual, the provision of health care to an individual, or the payment for the provision of health care to an individual; and (ii) identifies the individual who is the subject or based on which there is a reasonable basis to believe that the individual who is the subject can be identified. The Health Insurance Portability and Accountability Act (HIPAA) further clarifies that PHI includes information that identifies the individual by one or more (depending on context) of the following 18 identifiers:

1. Names;
2. Geographic subdivisions smaller than a state, including street address, city, county, precinct, zip code, and their equivalent geocodes, except for the initial three digits of a zip code in certain situations;
3. All elements of date (except year) for dates directly related to an individual, including birth date, discharge date, date of death; and all ages over 89 and all elements of dates indicative of such age, except that such ages and elements may be aggregated into a single category of age 90 or older;
4. Telephone numbers;
5. Fax numbers;
6. Electronic mail addresses;
7. Social security numbers;
8. Medical record numbers;
9. Health plan beneficiary numbers;
10. Account numbers;
11. Certificate/license numbers;
12. Vehicle identifiers and serial numbers;
13. Medical Device Identifiers;
14. Web Universal Resource Locators (URLs);
15. Internet Protocol (IP) address numbers;
16. Biometric identifiers, including finger and voice prints;
17. Full face photographic images and any comparable images; and
18. Any other unique identifying number, characteristic, or code.

Marketing: “Marketing” is defined by HIPAA as making a communication about a product or service that encourages the recipient of the communication to purchase or use the product or service (with the exception of the communications listed below), or an arrangement between the Health System and any other entity where the Health System discloses PHI in exchange for direct or indirect payment so that the other entity can make a communication about its own product or service that encourages the recipient of the communication to use or purchase that product or service.

The following communications are specifically excepted from the definition of “Marketing,” so long as the Health System does NOT receive financial remuneration in exchange for making the communication:

1. Communication for treatment, including case management or care coordination, or to direct or recommend alternative treatments, therapies, providers or settings of care; or
2. Communication to describe a health-related product or service provided by the Health System.

In addition, the following are NOT considered “Marketing:”

1. Face-to-face communications with the patient by the Health System, its providers and/or workforce;
2. Promotional gifts of a nominal value given to the patient by the Health System, its providers and/or workforce; and
3. Refill reminders or other communications about a drug or biologic currently being prescribed for the patient, so long as any financial remuneration received by the Health System for making the communication is reasonably related to the Health System’s cost of making the communication.

Business Associate (BA): A person or entity that performs certain functions or activities that creates, receives, maintains or transmits PHI on behalf of, or provides services to the Health System and is an external person or entity.

Examples of BA functions or activities can include, but are not limited to: claims processing or administration, data analysis, utilization review, quality assurance, billing, benefit management, practice management, and software hosting of PHI. Examples of BA services include: legal, actuarial, accounting, consulting, data aggregation, management, administrative, accreditation, and financial.

If you have any questions regarding whether a person or entity’s function qualifies as a BA, contact the Procurement office.

Sale of PHI is defined as a disclosure of PHI by the Health System, or a Business Associate of the Health System, if applicable, where the Health System or its Business Associate directly or indirectly receives remuneration from or on behalf of the recipient of the PHI in exchange for the PHI.

A “sale of PHI” does NOT include a disclosure of PHI:

1. For public health purposes;
2. For research purposes, where the only remuneration received by the Health System or its Business Associate is a reasonable cost-based fee to cover the cost to prepare and transmit the PHI;
3. For treatment and payment purposes;
4. For the sale, transfer, merger or consolidation of all or part of the Health System and for related due diligence;
5. To or by a Business Associate for activities that the Business Associate undertakes on behalf of the Health System, and the only remuneration provided is by Health System to the Business Associate;
6. To the patient, when requested by the patient; or

7. For any other purpose permitted by the Privacy Rule where the only remuneration received by the Health System or its Business Associate is a reasonable, cost-based fee to cover the cost to prepare and transmit the PHI for such purpose, or a fee otherwise expressly permitted by law.

PROCEDURE/GUIDELINES

Marketing

The Health System must obtain an individual's authorization using a HIPAA-compliant authorization form before using or disclosing the individual's PHI for Marketing purposes. Please contact the Office of the Corporate Compliance if you wish to obtain such an authorization.

Sale of PHI

The Health System must not sell PHI, unless it obtains a HIPAA-compliant authorization from the individuals who are the subject of the PHI being sold. Please contact the Office of the Corporate Compliance if you wish to obtain such an authorization.

Training

The Office of Corporate Compliance will provide training on HIPAA on, at least, an annual basis.

Sanctions

In compliance with HIPAA, violations of this policy will be subject to disciplinary action as outlined in the Human Resources Policy and Procedure Manual and in the Bylaws, Rules and Regulations of the Medical Staff.

Document Retention

Any documentation generated in compliance with this policy will be retained for a minimum of 6 years from the date of its creation.

Questions related to this policy should be directed to the Office of Corporate Compliance.
