Measuring and improving patient satisfaction

As part of our mission to put the patient first and provide the highest level of outcomes and satisfaction, each patient’s condition and progress are measured and recorded using recognized outcome questionnaires. This information helps us improve how we diagnose and treat patients and allows us to be compared favorably to similar spine centers both nationally and internationally.

Patient testimonials:
“Wonderful doctors, great staff. Very helpful!”
“Personable and caring — attentive and professional.”
“The best! Everyone at the Spine Center was caring and giving.”

The Spine Center has several convenient locations throughout Long Island and Queens. To refer a patient, contact our dedicated patient care coordinator at (844) 88-SPINE or visit Northwell.com/spine for more information.

Northwell Health (formerly North Shore-LIJ Health System) is New York State’s largest healthcare provider and private employer. With 21 hospitals and nearly 450 outpatient practices, we serve more than 1.8 million people annually in the metro New York area and beyond. Our 61,000 employees work to change health care for the better. We’re making breakthroughs in medicine at the Feinstein Institute. We’re training the next generation of medical professionals at the visionary Hofstra Northwell School of Medicine and the School of Graduate Nursing and Physician Assistant Studies. And we offer health insurance through CareConnect. For information on our services in more than 100 medical specialties, visit Northwell.edu.
Are you tired of living with back and neck pain?

When back or neck pain strikes, it can impact every aspect of your life. Whether you’ve suffered a spinal injury or are struggling with a chronic spinal condition, you need expert diagnosis and professional treatment. At the Northwell Health Spine Center, we offer cutting-edge, comprehensive care for patients with back and neck pain, as well as advanced treatment for the full spectrum of spinal disorders. With convenient locations throughout Long Island and Queens, our world-renowned team of spine specialists is dedicated to providing you with patient-focused, innovative treatment.

**Specialized treatment with you in mind**

Nearly all of us suffer from back pain at some point in our lives, but not all back pain is the same. This is why you need a team of experienced spine physicians who can provide an accurate diagnosis and the most effective treatment options — whether you have a muscle-related condition or a more serious issue involving your spine.

**Some of the conditions we treat include:**
- Back and neck pain
- Disc herniation
- Sciatica
- Spinal stenosis
- Sacroiliac (SI) joint pain
- Spondylosis and spondylolisthesis
- Spinal injury, trauma and deformity

**Our goal is to help you get better**

Imagine having a world-class team of medical professionals behind you with one goal in mind — your health. The Spine Center physicians are the best at what they do and have been trained to work collaboratively with you through the entire process — from diagnosis to treatment and recovery. Our commitment is to make you aware of all options available to you, and keep you informed every step of the way.

**Advancing spine care**

By choosing the Spine Center at Northwell Health, one of the nation’s largest health networks, you gain the experience of a dedicated team of physicians, including both surgical and nonsurgical specialists. Upon referral, you will receive a thorough evaluation and be given an evidence-based, diagnosis-specific plan of care.

Your treatment is part of a collaborative effort that includes the following specialties:
- Physical Medicine and Rehabilitation
- Neurosurgery
- Orthopaedic Surgery

Other specialists who may contribute to your plan of care include:
- State-of-the-art spine and musculoskeletal radiology
- Rheumatology
- Neurology
- Physical therapy
- Complementary and alternative medicine
  - Acupuncture
  - Medical massage

Our core team of spine physicians works both clinically and academically with clinicians throughout Northwell Health. Our physicians are also dedicated to the education of medical students, residents and visiting clinicians, and contribute to meaningful spine-related research.
